

OFFICE OF THE STATE EDUCATIONAL ADVISER.
CIVILIAN CONSERVATION CORPS
GENERAL EXTENSION DIVISION.
UNIVERSITY OF FLORIDA, GAINSVILLE, FLORIDA

FLORIDA ADVISER
NO. XXVI.

NOVEMBER 28, 1934.

1. OFFICIAL RULES, FOOTBALL AND BASKETBALL:

We are sending out this week to each of the CCC Camps in the State a copy of the official rules of football, basketball and volley ball. These booklets usually cost 10¢ per copy but through the courtesy of P. Goldsmith & Sons, Inc., they were furnished free. The headquarters of this company are in Cincinnati, Ohio.

2. HANDBOOK OF INTRAMURAL ATHLETICS UNIVERSITY OF FLORIDA:

Through the courtesy of the Athletic Association of the University of Florida, we have been able to obtain for each of the camps in the State a copy of this handbook. This book gives details that will help you to work out your camp athletic program in a systematic manner and at the same time make it more interesting to those taking part in it.

This intramural program has been in operation here at the University for several years and has proven very successful. There should be several ideas contained in this book worth borrowing for your own program. Intra camp activities should be given consideration since they really affect every man in camp. If you have not already done so put on some intra camp competition and watch the interest in your athletic program pick up.

Additional copies of this handbook may be obtained by writing this office or direct to the Athletic Department of the University.

3. VISUAL AIDS: (POSSIBILITIES).

Here at the University there is a wealth of instructional material in the form of illustrated lectures which come in the form of stereoptican slides. With each set of slides there is a very interesting set of notes for lectures. One set of slides with the lecture

notes is sufficient to last an hour or longer. This office has obtained all the stereoptican lanterns that can possibly be obtained for the use of the camps. Several camps have been able to borrow projectors from nearby schools and sometimes churches. If you do not have a visual program in your camp you are not taking advantage of your resources as you should. See if you cannot borrow a machine one night each week for this purpose.

USE OF SLIDES: Some camps are running the slides through in such a manner that they can get no credit for the work in the educational program. If you will give lectures on history one month and list it as a class, taking up the various periods each week, you will find that it will be more interesting to the men and you will get credit for the work in your program. There are 11 sets of slides dealing with American History, this would last approximately three months as material for a class in American History. In other subjects there are just as many slides and lecture notes to accompany the slides.

Listed below are some of the subjects and the number of sets of slides on each subject:

ART.....	14 sets;
CHRISTMAS.....	7 "
CITIZENSHIP.....	15 "
HEALTH.....	6 "
LITERATURE.....	18 "
GEOGRAPHY.....	59 "
HISTORY (AMERICAN).....	11 "
NATURE STUDY.....	7 "
RELIGIOUS.....	14 "

FLORIDA ADVISER
NO. XXVI.

SONG SLIDES.....6 sets.

If you have lost the catalog of visual aids which was mailed out from this office sometime back, write in and we will be glad to send you a copy.

4. DANCING CLASSES:

Mr. McCarty CEA at Company 1420 and 1401, (both of which are at Ocala), reports a very interesting class. It seems that he has made an arrangement with a dancing studio in Ocala whereby the CCC boys get the lessons at reduced rates by going in groups. The small fee is made up among the men participating, and twice each week they go into town to the class. This seems to be a very effective method of handling the dancing problem.

5. USE OF NEARBY THEATRES:

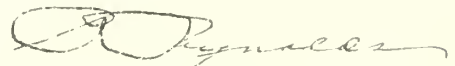

Mr. R. P. Trogdon, CEA at Company 1416 Chipley, Florida, has made arrangements with his local theatre management to use the theatre every other Friday afternoon for the showing of educational films. This should be practicable if you are near a theatre where the management is cooperative.

6. HANDICRAFTS:

If you read HAPPY DAYS last week you no doubt read the very good write up on Handicrafts of the Fourth Corps Area. It seems that this Corps Area is ahead of all the others when it comes to that phase of the program. We should try to hold this position in the future, as well as progress more in the field. This State is not carrying on as much instruction in this phase of the program as are the other States in the Corps Area.

7. SUPPLEMENT TO THE FLORIDA ADVISER:

As a supplement to the Florida Adviser this week, we are sending out a list of firms that sell handicraft and vocational education materials. Also we are sending out a revised list of Camp Educational Advisers and their Camp location.
